MAX 2018 AWARD FOR BEST CHILDREN'S SHOW

If you are little, or if you have ever been little, you will have noted that growing up is not always easy… Things that you do not understand happen to your body, you have questions for which you do not get answers, you look at yourself in the mirror and you would like your nose to stop growing so fast. This has happened to you, right? And to us too. This is why we have created this show.
Bambalina appeared in Valencia in 1981, focusing on the singular theatre of puppets. It has always stood out for its interest in opening up this genre to interdisciplinary worlds, presenting proposals with a clever dramaturgy related to other visual arts.
