Valentina is restless, mischievous and determined. She cannot stand having people tell her that there are things she cannot do because she is intrepid and is always getting into trouble. When the monster Zampalotodo devastates the city, the municipal councilors accuse Valentina's grandmother, who lives in hiding in the sinister valley. The young woman tries to demonstrate her grandmother's innocence and defeat the monster. Adventures and humour, music, action… and much more.
Teatro Mutis has been in action here and there for over 25 years. With shows for children and the general public, it has performed in theatres, public squares, fairs and festivals all over Spain. The company works with its own texts and adventures set in fairy tale times and locations which they recreate with meticulous staging and the singular interaction of actors and puppets.
