A mother, a daughter, three possible fathers and wedding you'll never forget!

Inspired by the timeless songs of ABBA, this fantastical fairy tale revolves around family and friendship in a magical world from writer Catherine Johnson. The night before her wedding, Sophie begins the search to discover the identity of her father. In the idyllic Greek island where she lives with her mother, three men who 20 years earlier had passed through the island reunite, one of whom Sophie believes must be her until now unknown father.

Mamma Mia!, the most successful and entertaining musical Broadway has produced in years, currently has more than 10 productions in London, New York, Denmark, Thailand and Japan, among others, and has debuted in 160

cities worldwide.

35 years ago, on April 6th, 1974 to be precise, a group comprised by four Swedish artists won the Eurovision Song Festival with a song called "Waterloo." ABBA – an acronym made up of the first letters of the artists' names – has sold over 360 million albums worldwide. "Dancing Queen," "Summer Night City," "Chiquitita," "Voulez-Vous," "Gimme! gimme! gimme!," "Take a chance on me" and "The Winner Takes It All" are some of their hits, and most have reached number one on all the charts.
