## LE CARAMANTRAN

Le Caramantran is a group of professional carnival artists, stilt walkers, musicians, actors, giant puppeteers & its speciality- fireworks experts, builders and sculptors, led by the desire to surprise and reveal their poetry. Le Caramantran burst into the city with their joyful and dreamlike shows to light up our imagination.

### BÉBÉ CHARLI

Bébé Charli is not like other babies. He is "one year old" and weighs 20 times as much as any other baby, is always in a good mode, if he cries it is to make you laugh ... but beware, aboard his supersonic pushchair, as fast as a formula 1 vehicle, Bébé Charli attacks bakeries, kiosks, sprinkles passers-by with his superpee and has no qualms about asking those questions that all children like to ask. Bébé Charli is adorably naughty.

### ECART

Homs Fums are three curious little characters, three human puppets with comic-inspired masks. With mackintoshes and water boots, these joking, naughty and nostalgic "homs" dance their past at the rhythm of a rich musical miscellany and make the audience dance with them in complicity. In their mini-convertible they go through the streets in an astounding visual and sound event.

### JOHAN LORBEER

Johan Lorbeer is known for his performances where he challenges the laws of physics. For the last fifteen years, Lorbeer has been working in the field of "still-life", where he manages to remain still for hours in an apparently impossible position. Oblivious to gravity, Lorbeer becomes a human sculpture, a living work of art.
