## MaF 2025 Closing Concert THE NEW RAEMON & MCENROE

*Nuevos bosques*

Speaker poet Isabel Bono

---

Nine years after *Lluvia y truenos*, the sensitivity of The New Raemon and McEnroe come together again to present us with *Nuevos bosques*, thirteen songs that dissect everyday life and put at the centre of it the importance of love, how the passing of time changes us and all those defeats that we accumulate. Between the elegant pop of Ramón Rodríguez and the austere folk of Ricardo Lezón, *Nuevos bosques* is one of the most powerful studio albums of this year. The closing concert features the participation of the poet Isabel Bono.
