Rolabola presents the most eccentric fireman you can find...on the street, hanging from a tree or from a balcony... who will have to resolve all kinds of situations in the most ingenuous and amusing manner possible. Accompanied by a strange car, he will carry out his rescue work and at the same time show how he can perform risky balancing tasks and handle fire with real circus artistry, on top of his car and on the ground. If you ever need him, remember that his number is "080...and others".
