Ms Mercedes and a ghost live in the same house. Each one of them tries to get on with his/her daily life, but there are times when they bother each other. They both think that the solution consists in having the other one leave, and they do all they can for this to happen.

The stage arts live: music (piano, percussion and sound effects for pieces by Fauré, Ravel, Offenbach), glove and shadow puppets, video productions and visual effects to tell the story of the encounter between two "different" beings.
