DANZA A ESCENA 2019

Show recommended by the artistic commission of the Spanish Network of Public Theatres, Auditoriums, Circuits and Festivals

The Earth, our home, is rapidly changing. We must find a more respectful way of life to protect our planet and our environment. Gaia belongs to all of us. Together we can draw a happy future and a world full of colour. Painting, music, audio-visuals and dance help us discover the intensity, the power and the beauty of our planet and its natural treasures.
