DANZA A ESCENA 2020

Chica Inuit lives in a village of igloos where it is always very cold. *Deshielo* is about journeys, about personal solutions in the face of climate change and the deterioration of our ecosystem. It is about working together and creating habits that respect the balance of our environment. It is about friendship as the most effective of tools, and how ordinary people can provoke extraordinary change.
La Coja Dansa pays very close attention to the smallest of details in its shows for families and offers extremely beautiful staging with rhythms that cater to the most avid of childhood gazes of childhood.
