Hand programme (ESP)

Dumbo, the musical that breaks down barriers!

With fantastic staging and live singing, this Dumbo is the classic story converted into a

TEATRO CERVANTES | ECHEGARAY DE MÁLAGA

project of integration and awareness raising in the struggle against bullying and for social inclusion. Colourful staging and amusing songs enable young and old alike to have a great time together and learn the importance of respecting those who are different.

Dumbo, a little elephant with large ears, has just arrived at the Circus of Time, where he becomes the laughingstock because he is different. But Dumbo does not give in and thanks to his friend Peanut the mouse, discovers that what he thought was his greatest defect is in fact a marvelous gift: he can fly using his ears as wings.

Candileja Producciones was founded in 2008 with the objective of using all possible stage languages to create artistic and educational projects to amuse and inspire children and adults. Their family musical theatre shows are based on classic stories they turn into new versions with current points of view and present-day values, such as recycling, inclusion and emotional education.
